Shaping the world by connecting markets to optimise global resources

ICIS is the global source of Independent Commodity Intelligence Services. We connect data, markets and customers to create a comprehensive, trusted view of the global commodities markets, enabling smarter business decisions that optimise the world's resources.

Over the past four decades, we have cultivated deep expertise in downstream petrochemicals, supported by our ever-expanding reach in the energy and fertilizer markets. Today, we are the world's largest and trusted petrochemicals market intelligence provider.

At ICIS, we help businesses make strategic decisions, mitigate risk, improve productivity and capitalise on new opportunities. We make some of the world's most important markets more trusted and predictable by providing data services, thought leadership and decision tools. As a result of our unmatched global presence, we deliver targeted connected intelligence to influence thousands of decisions across supply chains every single day. Drawing upon our legacy, we are also in a unique position to leverage big data and analytics as part of RELX, a FTSE20 data and analytics company with over 30,000 experts across 40 countries.

With our intelligence, we shape the world by connecting markets to optimise the world's valuable resources.
