The ICIS China Methanol Annual Study provides an integrated view of data and expert analysis of the current and future trends of Chinese methanol. A valuable resource for creating robust plans for any production and investment activity, the study addresses key questions faced by international market players:

- What is driving the Chinese methanol industry?
- How is the unilateral downtrend of coal prices affecting the country’s methanol market?
- How are coal-to-olefins and methanol-to-olefins plants influencing downstream demand?
- Can Chinese methanol demand continue its rapid growth in 2016?

Along with in-depth insight into recent developments and hot topics, this must-have resource features extensive data and analysis of Chinese methanol and is available in an easy-to-read format.

**What’s included in the subscription?**

**China Methanol Annual Study**
- A complete review of China's methanol market in 2015
- Analysis of current supply/demand, including a one-year forecast
- Expert analysis of price trends, drivers and margins
- Commentary on the long-term impact of China’s methanol markets on international players
- Insight into the driving factors for 2016 – feedstock and import/export, among others

**Enhanced data handling with Excel**

All of the data from the annual study is available in Excel format, enabling instant integration with your forecasts, calculations and business plans, making it easier to customise your analytics view.

**Half-year update**

Stay abreast of opportunities and risks in the Chinese methanol market with updates that provide you the latest forecast data on supply and demand.

# Table of Contents

## PART I METHANOL MARKET OVERVIEW 2015

## PART II CHINA METHANOL SUPPLY AND DEMAND (2014-2016)

### PART III CHINA METHANOL SUPPLY
- Domestic Supply
  - Regional supply and producers’ profile
  - Output
  - Expansion projects for 2016
  - Supply changes in the country versus other countries
- Import and export
  - Suppliers
  - Import origins
  - Customs
  - Trade modes
- Supply forecast for 2016
  - Domestic supply
  - Import supply

## PART VI CHINA METHANOL DEMAND
- Downstream demand by applications
  - Formaldehyde
  - Acetic Acid
  - MTBE
  - DMF
  - MMA
  - DME
  - Methanol gasoline
  - MTO/MTP

## PART V
- Downstream demand by region
- China methanol export analysis
  - Export market review
  - Exports by destination
  - Export market outlook

## PART VI CHINA METHANOL MARKET TREND
- Price Curve
- Price Analysis

## PART VII IMPACT OF THE CHINESE METHANOL FUTURES MARKET ON THE SPOT MARKET

## PART VIII METHANOL PRICE DRIVER ELEMENT ANALYSIS FOR 2016
- Macroeconomics and crude oil
- Feedstock
- Supply
- Downstream Demand
- Local government policies
Table of Contents

PART IX  COST ANALYSIS AND IMPORT CARGOES

PART X  INFLUENCE OF THE CHINESE MARKET ON INTERNATIONAL MARKET PLAYERS

PART XI  APPENDIX
  • Producers
  • Traders
  • Downstream producers
  • Relevant policies
    o Natural gas
    o Other relevant policies

About ICIS

ICIS is a trusted market intelligence provider for the global petrochemical, fertilizer and energy industries. We offer comprehensive, data-driven products and services to help companies like yours make well-informed decisions when settling price contracts, as well as building your medium- to long-term strategies.

With over 30 years of experience in the industry, ICIS is recognised domestically and internationally as a leading source of market information. Our coverage of the Chinese market provided by our local experts, combined with the expertise of our global analytical team, ensures that market players receive unrivalled independent insight into China's methanol industry.
